

Electrical Converter Kit™

A must-have for every Carpet Cleaner's toolbox! Allows two 20 AMP power circuits on a single outlet. Used with a 230V dryer plug, this kit provides you with safe, circuit protected 115V power. Great for running portable extractors, heaters, and other high amperage demand units. Never blow a customer's breaker again! Inexpensive and convenient, this unit will "pay for itself" in saved time and labor.
